NO-SIGHT PRIVACY SERIES

Flush Metal offers the premier solution in providing privacy with our newly redesigned No-Sight Privacy Series. Flush Metal uses a full height, continuous stop, and hinge side filler used to eliminate sightline gaps around the door. Our No-Sight Privacy Series includes countersunk holes to ensure a sleek appearance without any exposed fasteners. Our No-Sight Privacy Series are now offered in an aluminum finish and satin Finish.

No-Sight Privacy Series Options are available in Baked Enamel & Stainless Steel including 5SM from heights of 58" to 78"

- Flushite (Overhead Braced)
- Flushart (Floor Mounted)
- Flushung (Ceiling Hung)
- Floor to Ceiling (Floor & Ceiling Mounted)

*must have continuous stainless steel brackets for stability

ENGINEERED BETTER

Newly designed for privacy assurance. Our No-Sight Series completely eliminates all visible gap lines around our doors. Our full height strips are installed at the front and rear of our doors. We offer no sight emergency access systems for both concealed and surface mounted latches.

Concealed Lock No Sight Series come as a 2 piece set:

- One piece is installed on the door in between both of the hinges
- The second piece is installed on the pilaster in replacement of the keeper

Surface Mounted Slide Latches comes as a 3 piece set to insure emergency access

- One piece is installed on the door in between both of the hinges
- The metal keeper is centered between the two pieces to secure latching on the pilaster

FLUSHMETAL'S HISTORY

Flush Metal has been a leader in the partition industry for over 50 years, manufacturing bathroom partitions, showers, urinal screens, and dressing rooms. All compartments are furnished complete with quality hardware. As one of the country's oldest and most experienced manufacturers of bathroom partitions, showers, urinal screens and dressing rooms, Flush Metal is unmatched in its technical capabilities; plus, its flexibility to make custom changes quickly meets the needs of the fast-track building industry.

Quality is a hallmark of any Flush Metal product. Special attention is given to both the materials and manufacturing procedure for every project. This insures that the company's own rigorous in-house inspection standards are met before items are shipped.

Architects often call on Flush Metal's years of experience to recommend both product and design for maximum efficiency and durability.
